

We are

NO LIMIT Global Corporation. USA

We Promise to Provide the Best Quality

SUSTAINABLE JUICE

www.nolimitglobal.com

Quality Certification

It began with a mission to spread the good feeling

Team Imagine

A passionate, obsessive group of friends, who having done the expected IIM/IIT/Ivy-league, Banking/Consulting/IT life circuit, decided to shock their parents and become 'juice wallets'. We love to eat & drink, we love to argue about our dreams & fears and we love to create. We can't stop imagining fresh ideas, and just hope to create awesome products. We fortunately keep running into like-minded dreamers, long may the Imagine journey continue.

Find out about our trip

About No Limited Global

No Limited Global - an American company was founded in 2019, but we have been working in importing juice since 2009 but it was a joint stock company and now it has separated itself under the name - No Limited Global Corporation.

It is considered one of the first private companies that specialized in importing juice and food. The company owns California Paradise brand products registered domestically and internationally.

The brand California Paradise is the true meaning of the juice, as production and control are carried out according to international quality specifications and requirements.

Mission & Vision

Mission:

Responsibly delighting more people in more ways, across more places.

Vision:

To be recognized as ONE, PROUD, GROWING organization, INNOVATING to responsibly Delight our people, customers, consumers, share owners, and communities within USA and beyond.

Our mission

Make the food foods that are consumed daily are available in high quality and reasonable prices to the largest possible number of families.

ENJOY IT!

Our-Process
The only thing we
Mix is Good
Feeling

How we make the Good feeling

Our goal is simple - consuming an Imagine product should deliver tasty, purified goodness across your physical and mental being! Selling 'raw' and unprocessed juices is an attractive western trend. While we would love to deliver pristine, home-like completely unprocessed beverages to our customers, in a country like India with a high ambient temperature and unfortunate levels of environmental issues that would be irresponsible and unsafe. We know, because we conducted extensive tests and trials. We continuously strive to exceed established standards. We invite our corporate customers to conduct random audits and rate against.

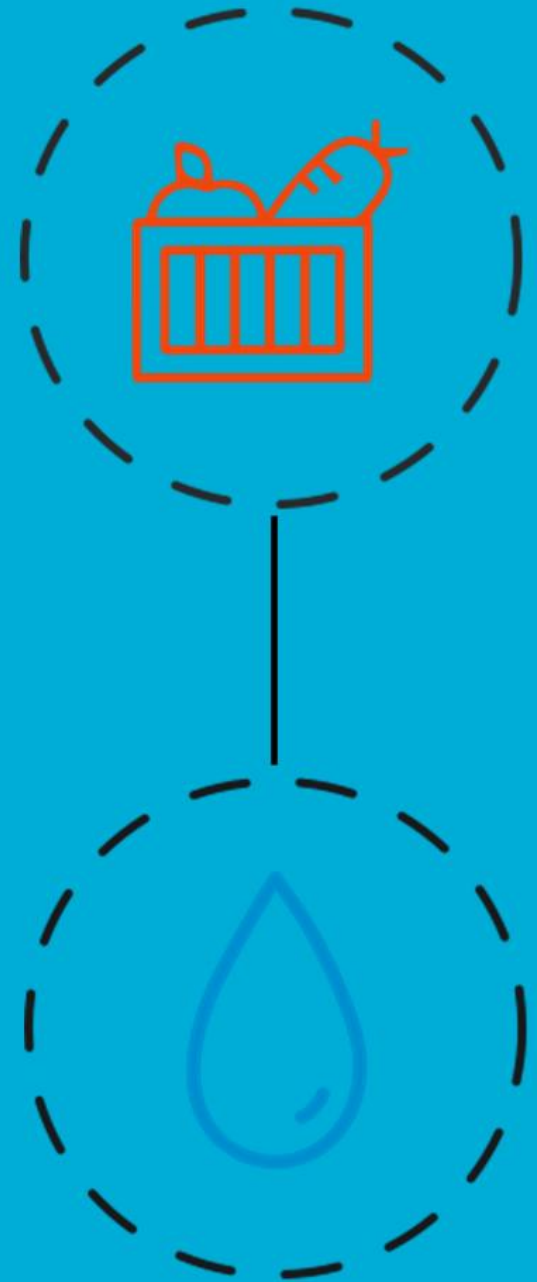

Farm to Factory

Source high quality fruits, directly from farmers. No middlemen. Thus we put great care and effort into creating our juices. Our secret for excellence is simple – the same which every top chef/producer in the world follows, for food and beverages - source the best ingredients, and treat them with respect. From sourcing high quality ingredients from handpicked farms, even in far flung places, to selecting only those pieces which are in good condition, to being very particular about in our operating practices, we don't take any shortcuts.

Wash, Wash, Wash

Fruits are sorted, cleaned and triple washed thoroughly.

Preparation

Depending on the fruit, it is cut, destined and peeled prior to extraction. [We leave the peel on our oranges, for that special sharpness courtesy the Orange rind's natural oil]

Cold Pressed

Juice is then gently extracted by pressing the prepared fruits [Just like the Japanese use multiple layers of muslin to extract clear Soya sauce, we too utilize the same 750 year old pressing technique!] Our production facility is fanatically maintained and kept in pristine working order. At Imagine, we constantly innovate and test various processing technologies. Currently, all Imagine products are created at our HACCP certified facility, under our FSSAI license, using a mixture of Flash and UV processing, to eliminate pathogens and spoilage micro-organisms. To ensure optimal sterilization, we apply a combination of flash, steam or UV processing techniques, to the juices, glass bottles and caps.

Sterilization

Pressed juices are blended, sterilized via mild heat, applied indirectly, to capture maximum taste and nutrition [We exhaustively tested all available solutions in the market and eventually custom built our one-of-a-kind line]

Sterilized Bottling

Purified cold pressed juice is now filled into pre-sterilized and quadruple washed, customized glass bottles in our aseptic, automated bottling plant [Glass over was a no-brainer for us. Save the planet. Save the juice. Save yourself!]

Good feeling Delivered

We export our products to more than 50 countries around the world and we choose the best distributors within each country to ensure that our products reach the consumers who deserve the best quality, which is our first and last goal (providing the best quality products to consumers)

Natural fruit

All juice

Artificial sugar
not added

No Preservatives

NO LIMIT PROMISE

SOURCE THE BEST

NATURAL & NO ADDITIVES

GLASS IS CLASS

PURITY VIA MINIMAL PROCESSING

Why buy our products ?

Research has shown that it takes at least 21 days to form a new habit.

Imagine wanting to help you achieve your health goals.

Say no to soft water, say yes to the juices added to it naturally, and switch to cold pressed juices in Egypt.

All juice. Do not focus! The only thing we confuse is a good feeling.
